## DETAILED ACTION

### *Response to Arguments*

1. The Terminal Disclaimer and remarks presented by the applicant have been duly noted. However, an update search and further review of the prior art of record has prompted the presentation of new rejections presented below. In view of such, the previous rejections in the first office action have been withdrawn. The Terminal Disclaimer has been considered in this Office Action.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith (U.S. Patent Number 5,467,877) in view of Moore (U.S. Patent Number 6,345,802).

Smith discloses a vessel 10 with closed bottom end and open top end and the bottom end defines a cavity fluidly sealed from the interior of the vessel, a cylindrical cooling element 52 and a base 56. Smith discloses the invention substantially as claimed. However, Smith does not disclose a tray for making cooling element. Moore discloses cooling element can be made in the freezer within a tray in the same field of endeavor for the purpose of making cooling element. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the apparatus of Smith with a tray in view of Moore so as to make cooling element.

*Allowable Subject Matter*

4. Claims 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809. The examiner can normally be reached on Tuesday-Friday from 8:00 to 6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on (571) 272-4834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
